In this exam, you will need to complete Part 1 and Part 2 within 60 minutes. Part 1 consists of multiple-choice questions, each worth 2 points, with 40 questions totaling 80 points. Part 2 includes two articles, after reading which you should answer five reading comprehension questions, each worth 2 points, with a total of 10 questions amounting to 20 points.

**PART ONE: Multiple Choice: (2% for each question, 80%)**

1. Despite the heavy rain, the outdoor concert went \_\_\_\_\_ as planned.  
A. ahead B. off C. on D. through
2. The company's profits have \_\_\_\_\_ sharply this year due to increased sales.  
A. ascended B. soared C. climbed D. elevated
3. To succeed in this role, you need to be able to \_\_\_\_\_ multiple tasks effectively.  
A. juggle B. throw C. flip D. wave
4. His argument was weak because it was based on \_\_\_\_\_ assumptions rather than facts.  
A. tangible B. objective C. concrete D. subjective
5. After the scandal, the politician's career was \_\_\_\_\_ damaged.  
A. seldom B. occasionally C. irreversibly D. hardly
6. The new manager is expected to \_\_\_\_\_ some positive changes in the workplace.  
A. implement B. demolish C. neglect D. decline
7. The novel's plot is \_\_\_\_\_, constantly shifting between past and present.  
A. static B. monotonous C. linear D. complex
8. The professor asked the students to \_\_\_\_\_ their essays for grammatical errors as some of which made it impossible to read.  
A. cancel B. shorten C. revise D. copy
9. Her approach to problem-solving is very \_\_\_\_\_; she always considers multiple perspectives.  
A. narrow B. biased C. versatile D. limited
10. The chef used fresh herbs to \_\_\_\_\_ the flavor of the dish.  
A. spoil B. enhance C. reduce D. ignore
11. It's important to \_\_\_\_\_ all possibilities before making a decision.  
A. disregard B. neglect C. consider D. reject
12. The building was \_\_\_\_\_ after the earthquake for safety reasons.  
A. renovated B. demolished C. constructed D. painted
13. The committee decided to \_\_\_\_\_ the event to next year due to unforeseen circumstances.  
A. postpone B. cancel C. continue D. accelerate
14. Many tourists visit this town to see the \_\_\_\_\_ architecture from the medieval period.  
A. modern B. innovative C. ancient D. recent
15. Before the interview, the employees are asked to write an autobiography that \_\_\_\_\_ their working experiences.  
A. ignores B. includes C. contradicts D. mimics
16. The scientist's discovery was a major \_\_\_\_\_ in the field of renewable energy.

- A. setback B. breakthrough C. delay D. failure
17. The novel's protagonist in Kate Chopin's *The Story of An Hour* is a young woman who \_\_\_\_\_ against societal norms and pursued freedom, yet died in a great depression.  
A. conforms B. agrees C. rebels D. adheres
18. The author's use of symbolism in the novel was particularly \_\_\_\_\_, requiring careful analysis to understand.  
A. transparent B. superficial C. explicit D. subtle
19. In the debate, he \_\_\_\_\_ his opponent's argument with a well-reasoned counterpoint.  
A. corroborated B. exacerbated C. refuted D. conceded
20. The new legislation is intended to \_\_\_\_\_ the bureaucratic inefficiencies plaguing the system.  
A. augment B. alleviate C. perpetuate D. exacerbate
21. As part of their training, medical students must \_\_\_\_\_ various clinical rotations to gain practical experience in different specialties.  
A. avoid B. complain C. undergo D. boost
22. The environmentalist explained the benefits of a \_\_\_\_\_, emphasizing its contribution to sustainable energy.  
A. appetizer B. wind farm C. zip code D. threat
23. In business, it's crucial to keep track \_\_\_\_\_ your financial statements to ensure stability and growth.  
A. onto B. of C. into D. down
24. A committed artist may be devoted \_\_\_\_\_ their entire life to perfecting their craft.  
A. over B. onto C. by D. to
25. The manager stressed the need to be familiar \_\_\_\_\_ the latest industry trends to stay competitive.  
A. with B. into C. onto D. behind
26. Before embarking on a \_\_\_\_\_, students were given an overview of the trip's objectives.  
A. field trip B. supplier C. contemporary D. expert
27. A successful entrepreneur should be equipped \_\_\_\_\_ a sound understanding of financial management.  
A. on B. in C. off D. with
28. When facing challenges, successful leaders often insist \_\_\_\_\_ maintaining a positive and resilient attitude to motivate their teams.  
A. in B. on C. away D. into
29. To fully understand the details of the historical narrative, it is essential to pay attention \_\_\_\_\_ the context.  
A. onto B. to C. on D. into

30. Before attending the workshop, please remember to fill \_\_\_\_\_ the registration form to ensure seamless participation.  
A. on B. over C. out D. by
31. The students were \_\_\_\_\_ to embark on the overseas study program, anticipating the enriching cultural experiences that awaited them.  
A. financial B. eager C. reluctant D. striking
32. The dedicated artist aimed to \_\_\_\_\_ her previous masterpieces, pushing the boundaries of her creativity.  
A. replicate B. surpass C. preserve D. navigate
33. During \_\_\_\_\_, the demand for electricity is at its highest point.  
A. involve B. sponsor C. peak hours D. income tax
34. The speaker's arguments appeared weak and lacked substance, making the entire presentation seem \_\_\_\_\_.  
A. persuasive B. unconvincing C. elevated D. abandoned
35. To maintain the quality of your product, it's important to have a reliable \_\_\_\_\_ for raw materials.  
A. insist on B. infection C. supplier D. interruption
36. Successful leaders are aware \_\_\_\_\_ the importance of continuous learning and self-improvement.  
A. by B. with C. of D. in
37. The team decided to participate \_\_\_\_\_ a new initiative to address the challenges they were facing.  
A. by B. in C. on D. onto
38. In forensic investigations, experts use advanced techniques to \_\_\_\_\_ the unique characteristics of fingerprints for accurate profiling.  
A. neglect B. identify C. disregard D. ignore
39. After the car accident, the mechanic was tasked to \_\_\_\_\_ the damages and ensure the vehicle's roadworthiness.  
A. enhance B. repair C. reproduce D. distribute
40. When facing a complex legal issue, it is advisable to consult with a \_\_\_\_\_ in the field.  
A. expert B. seminar C. perform D. supervise

**PART TWO. Reading Comprehension (2% for each question, 20%)****I.**

Starting its journey in the 1960s military landscape, the Global Positioning System (GPS) has become a crucial part of our daily lives. It moved from being a military tool to a must-have for civilians, changing the way we navigate our world.

Originating from the vision of the U.S. Navy in the 1960s, the first crucial moment in the history of GPS occurred with the development of a Defense Navigation Satellite System (DNSS). This laid the groundwork for the creation of a groundbreaking global navigation system.

Fast forward to the 1990s, GPS achieved Full Operational Capability (FOC), providing precise positioning and timing information on a global scale. What began as a military asset effortlessly transformed into an invaluable tool for civilians, ushering in a new era of navigation.

In the 2000s, GPS encountered a crucial moment with the discontinuation of Selective Availability (SA). The intentional degradation of the GPS signal was initially implemented to limit civilian accuracy, preserving military advantage. By discontinuing SA, the U.S. government unlocked the full potential of GPS for civilian use, allowing unrestricted access to accurate positioning information worldwide. This decision marked a significant turning point, opening up access to the benefits of GPS technology for all.

After SA was discontinued, the commercial applications of GPS underwent a rapid increase. Industries such as logistics, emergency services, and various recreational activities witnessed widespread integration of GPS technology. From smartphones to car navigation systems, a variety of devices became equipped with GPS, fundamentally altering our approach to daily tasks.

The GPS story is still developing, marked by persistent efforts that involve introducing new satellite signals like L2C and launching the advanced GPS III satellites. These improvements guarantee a continuous evolution of GPS, adapting to the ever-changing needs of users across the globe.

From military beginnings to essential daily use, GPS illustrates technology's transformative power. Each circling satellite signifies GPS's dynamic journey through time, expertly navigating the complexities of our ever-changing world.

41. When did GPS achieve Full Operational Capability (FOC), providing precise positioning and timing information globally?

A. 1960s

B. 1990s

C. 2000s

42. What marked the first crucial moment in the history of GPS, laying the groundwork for a global navigation system?

A. the creation of DNSS

B. Originating from the U.S. Navy

C. Achieving Full Operational Capability

43. In the 2000s, why was Selective Availability (SA) intentionally implemented for the GPS signal?

A. To improve civilian accuracy

B. To secure a military edge

C. To enhance global navigation

44. What was the outcome of discontinuing Selective Availability (SA) in the 2000s for GPS?

A. Limiting civilian access

B. Preserving military advantage

C. Unlocking full potential for civilian use

45. After SA was discontinued, what experienced a rapid increase in the 2000s?

A. Military applications of GPS

B. Commercial applications of GPS

C. Military accuracy of GPS

II.

Sleep is a crucial component of overall health, often overlooked in our busy lives. It's not just the quantity of sleep that matters, but also the quality. Good sleep can improve concentration, regulate mood, and bolster the immune system, whereas poor sleep can lead to a range of health issues, from cognitive dysfunction to cardiovascular disease.

One of the primary functions of sleep is to allow the body to repair and rejuvenate. During sleep, the body produces proteins that are essential for cell repair and growth. This process is especially important for the heart and blood vessels. Consistently missing out on sleep can lead to chronic health problems like hypertension and heart disease.

Sleep also plays a vital role in brain function. It aids in memory consolidation – the process of converting new experiences into long-term memories. This is why a good night's sleep is essential before a major test or presentation. Lack of sleep can impair cognitive abilities, making it harder to concentrate and make decisions.

Recent studies have also linked sleep to mental health. Chronic sleep deprivation is associated with an increased risk of mental health disorders, such as depression and anxiety. Sleep affects the regulation of neurotransmitters and stress hormones, which play a critical role in mood and emotional balance.

The National Sleep Foundation recommends adults get between 7 to 9 hours of sleep per night. To improve sleep quality, it's advised to maintain a regular sleep schedule, create a comfortable sleep environment, and avoid caffeine and electronics before bedtime. Incorporating relaxation techniques, such as meditation or reading, can also be beneficial.

46. What is the main focus of the article?
- A. The dangers of oversleeping
  - B. The role of diet in sleep quality
  - C. The importance of sleep in health and well-being
  - D. Exercise and its impact on sleep
47. What are the consequences of poor sleep mentioned in the passage?
- A. Cognitive dysfunction and cardiovascular disease
  - B. Decreased risk of heart disease
  - C. Increased concentration and improved mood
  - D. Enhanced immune system
48. According to the passage, how does sleep contribute to physical health?
- A. It increases muscle mass.
  - B. It aids in cell repair and growth.
  - C. It reduces the need for exercise.
  - D. It improves digestion.
49. How does sleep affect mental health, as stated in the article?
- A. It decreases the risk of physical illnesses.
  - B. It enhances professional skills.
  - C. It has no significant impact on mental health.
  - D. It is linked to a higher risk of mental health disorders.
50. What does the National Sleep Foundation recommend for better sleep?
- A. Getting 5 to 6 hours of sleep per night
  - B. Keeping a regular sleep schedule in a comfortable sleep environment
  - C. Consuming caffeine before bedtime
  - D. Avoiding relaxation techniques
